

brave

- Google Chrome based.
- Strong Privacy
- Ad Blocker included

Plugin

- MultiLogin: <chrome/google.com/webstore/detail/multilogin>

Profiles

- Menu: `More Tools > Add new Profile`
- As soon as there is more than one profile, brave will ask during startup which one to use.

Problems

AW Snap

- Check / Clean cache: Quit Brave

```
[user@tlX]  
  
$ cd ~/.config/BraveSoftware/Brave-Browser/Default/Service\ Worker/  
$ \rm -R CacheStorage
```

Wrong standard font

- `brave://settings/fonts`
