

Firefox

AddOn

- MultiLogin: addons.mozilla.org/addon/multi-account-containers

Disable 'Reset Firefox ...'

- Tired of annoying message "It looks like you haven't started Firefox in a while. Do you want to clean it up for a fresh, like-new experience? And by the way, welcome back!"

- Solution found at

http://miroslav.suchy.cz/blog/archives/2014/05/13/how_to_disable_reset_prompt_in_firefox/index.html

- step by step:

- Open: `about:config`
- Create a new entry by `selecting any entry > right mouse click > New > Boolean`
- Enter the preference name: `browser.disableResetPrompt`
- Value: `True`

This Connection is Untrusted

- You see this message on encrypted sites with selfsigned certificates. If you trust the site, click:

I Understand the Risks > Add Exception > Get Certificate > Confirm Security Exception

Profile in use / Clean lock files

- After an unclean stop of Mozilla or Thunderbird (application crashes, desktop session crash, server crash) it happened frequently that a new start of the application fails with:

- To clean the setup, start either
 - Menu: Repair+Clean Firefox or
 - call `clean-firefox.sh` from a terminal.

Turn off Spell Checker

Tools > Options > Advanced > General > Check my spelling as I type: Off

Firefox Not Scrolling with Up/Down Arrow Keys or Home/End Keys

- Hit **F7** to activate/deactivate 'caret browsing'

Export / Import Bookmarks

This section explains how to export your bookmarks i.e on Windows to an HTML file, which can be used as a backup or for importing into another web browser and/or on an different Plattform.

Export

- Click the Library button , then click Bookmarks. Scroll to the bottom and click Show all Bookmarks.
- From the toolbar on the Library window, click Import and Backup and choose Export Bookmarks to HTML
- In the Export Bookmarks File window that opens, choose a location to save the file (any place you have write access will work), which is named bookmarks.html by default.
- Click the Save button. The Export Bookmarks File window will close.
- Close the Library window

Import

- Click the Library , then click Bookmarks. Scroll to the bottom and click Show all Bookmarks.

- From the toolbar on the Library window, click Import and Backup and choose Import Bookmarks from HTML
- In the Import Bookmarks File window that opens, navigate to the previously saved bookmarks HTML file you want import
- Click the Open button. The Import Bookmarks File window will close.
- Close the Library window.
 - The bookmarks in the selected HTML file will be added to your Firefox bookmarks within the Bookmarks Menu directory.

Cookies

Cookies are small files stored by Firefox that contain website-related data. Sometimes it is necessary to clean them if some page does not open correctly.

- Open the settings menu

- Choose *Privacy & Security* tab and scroll down to the *Cookies and Site Data* section

Here you can delete all cookies or cookies from selected pages. Several time periods are provided

- short-time periods (last hours, this day) are perfect to clean recent sessions
- in case of problems it is best to choose **Everything**
