

Jitsi

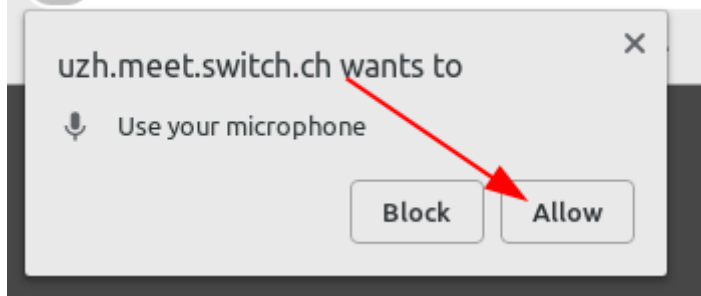

Lecturer/Host

Start a Meeting With Screen Sharing

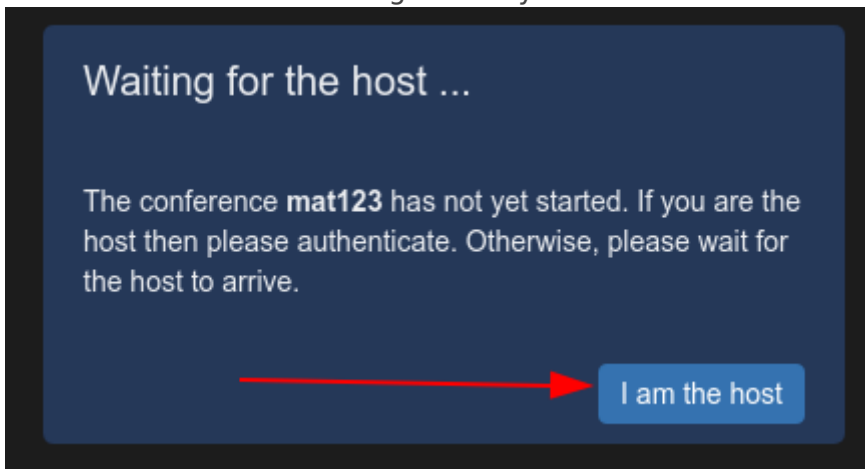

- Go to <https://jitsi.math.uzh.ch>
- Choose a name for your meeting/lecture (e.g. MAT123)

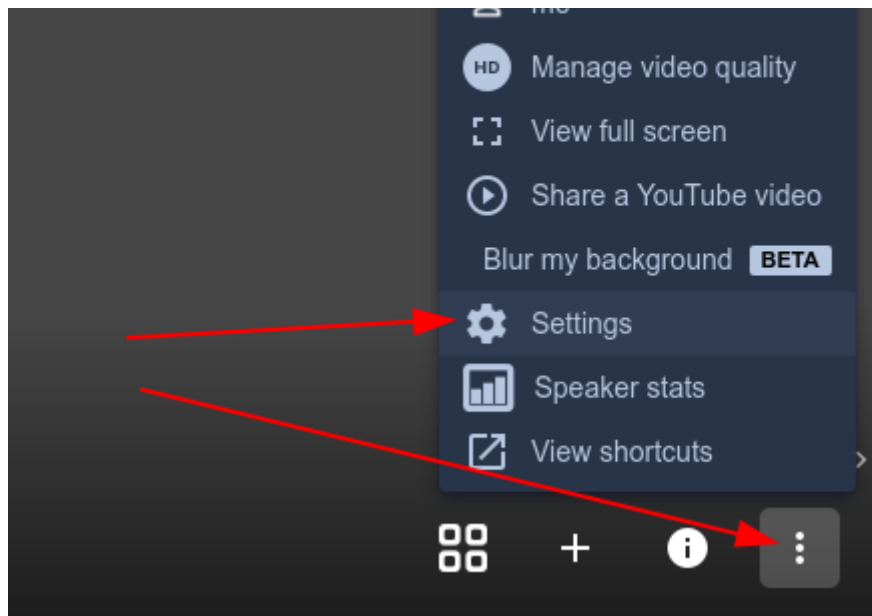

- At uzh.meet.switch.ch/MAT123

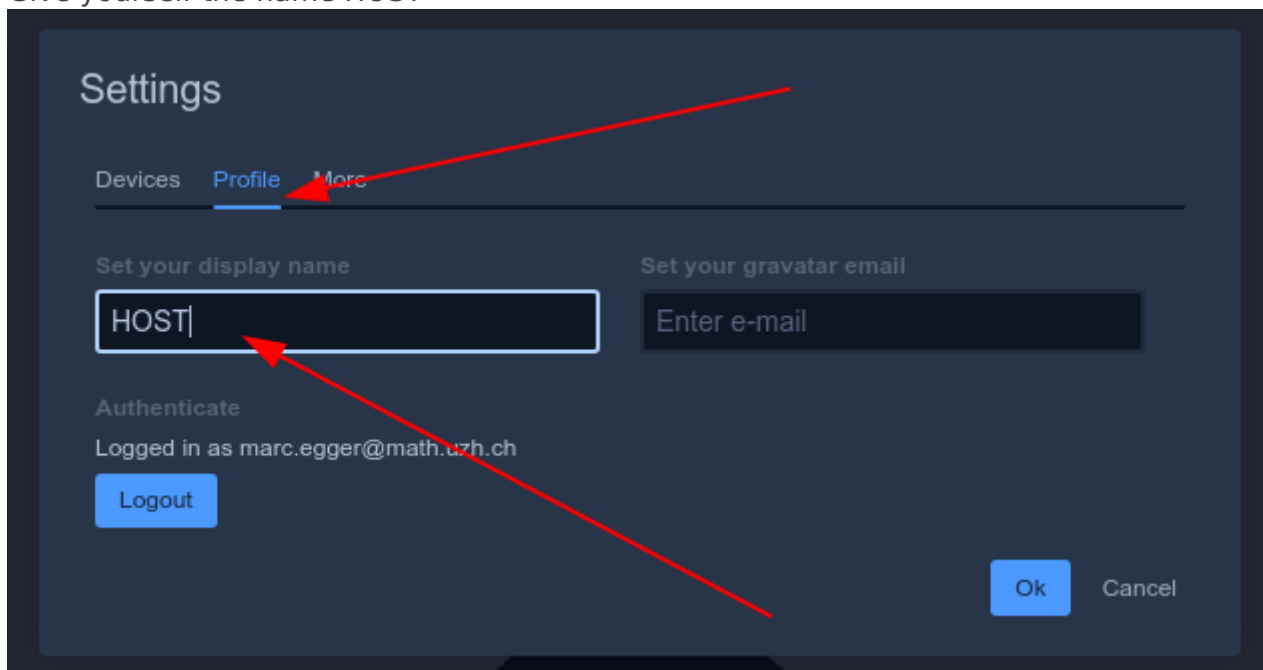

- Click "I am the host" and log in with your UZH shortname

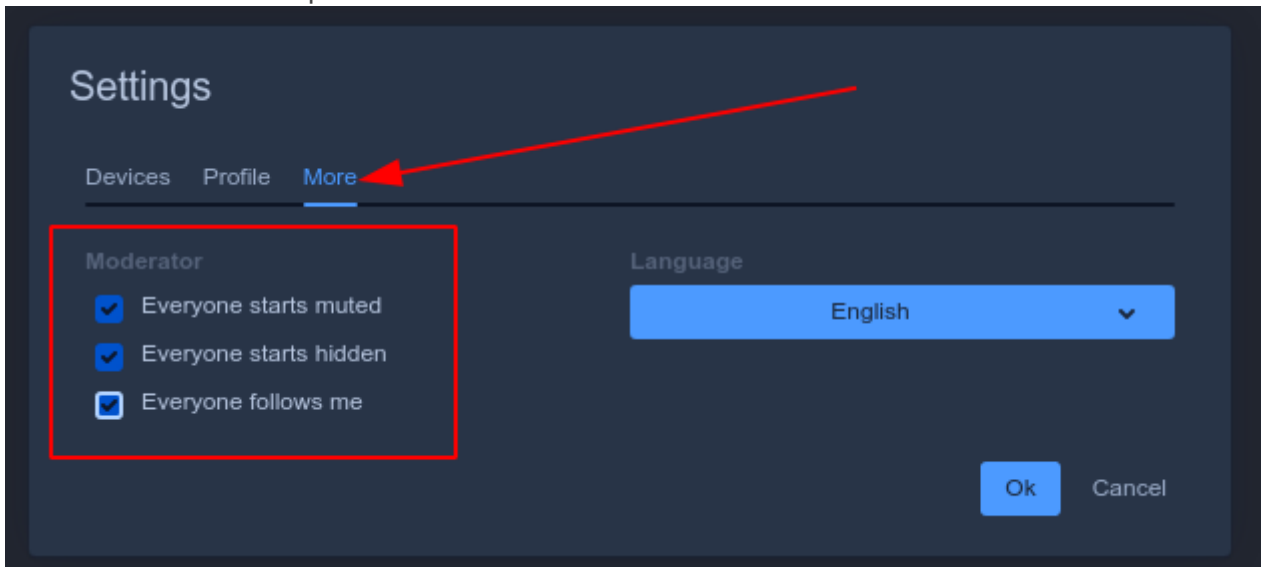

- Open the settings

- Give yourself the name HOST

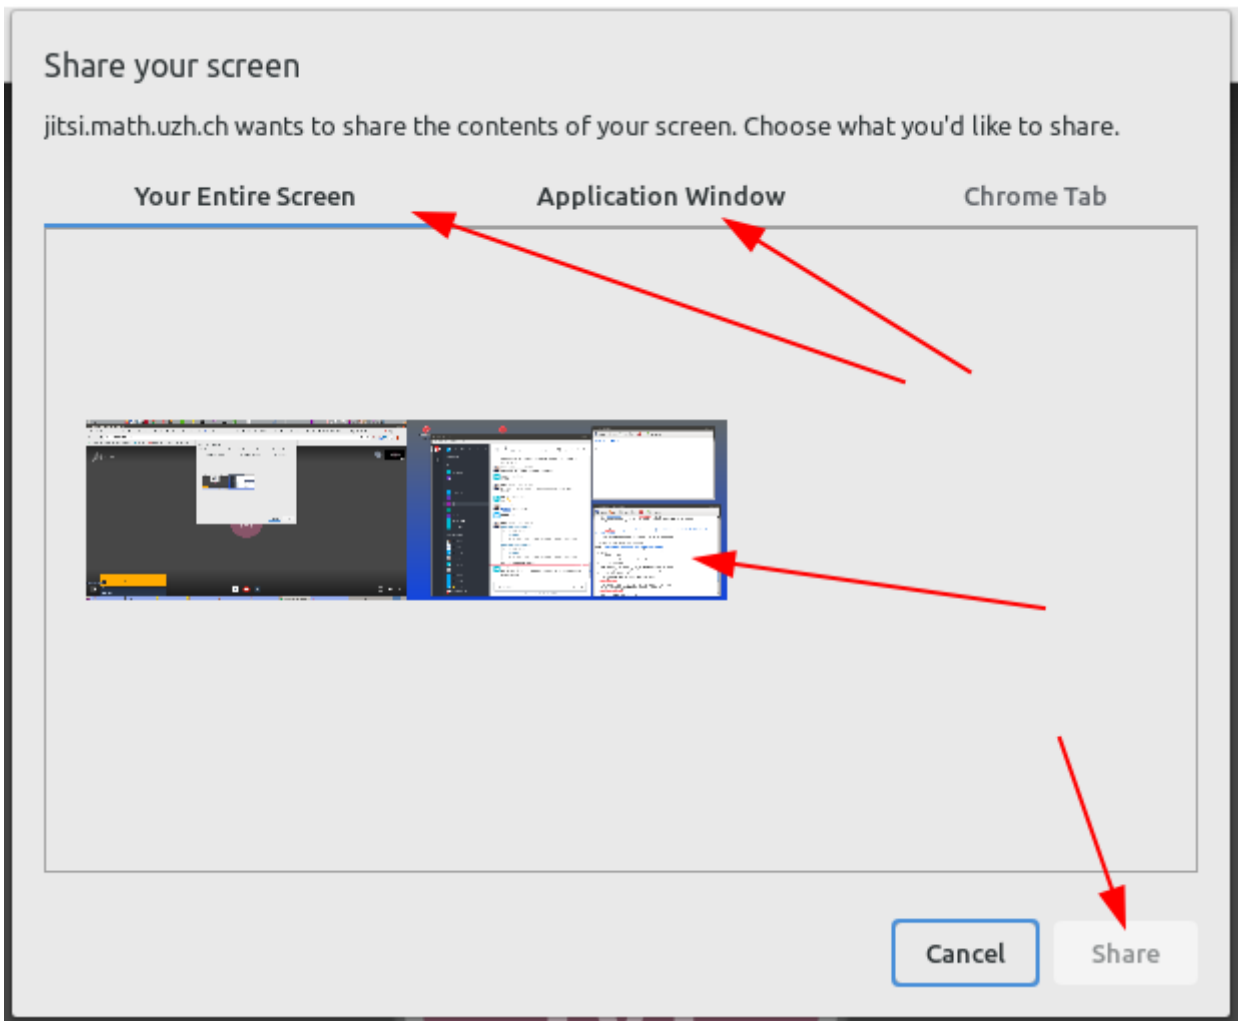

- Check all boxes then press 'ok'

- Click share screen icon (bottom left corner)

- Choose whole screen or only one window. **Click on the window**, then click share

- Share the link with your students (copy from URL bar)

- All students will join with their microphone muted and camera off by default
- Students will see what you see. (Since we've checked the checkbox "Everyone follows me" in the settings above)

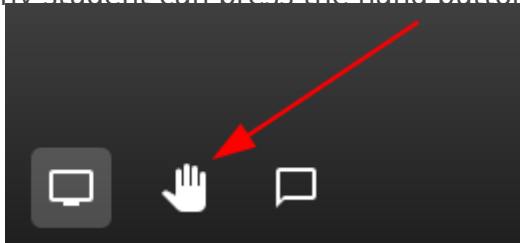

- On the right side you see a panel for each menu opens where you can mute or kick

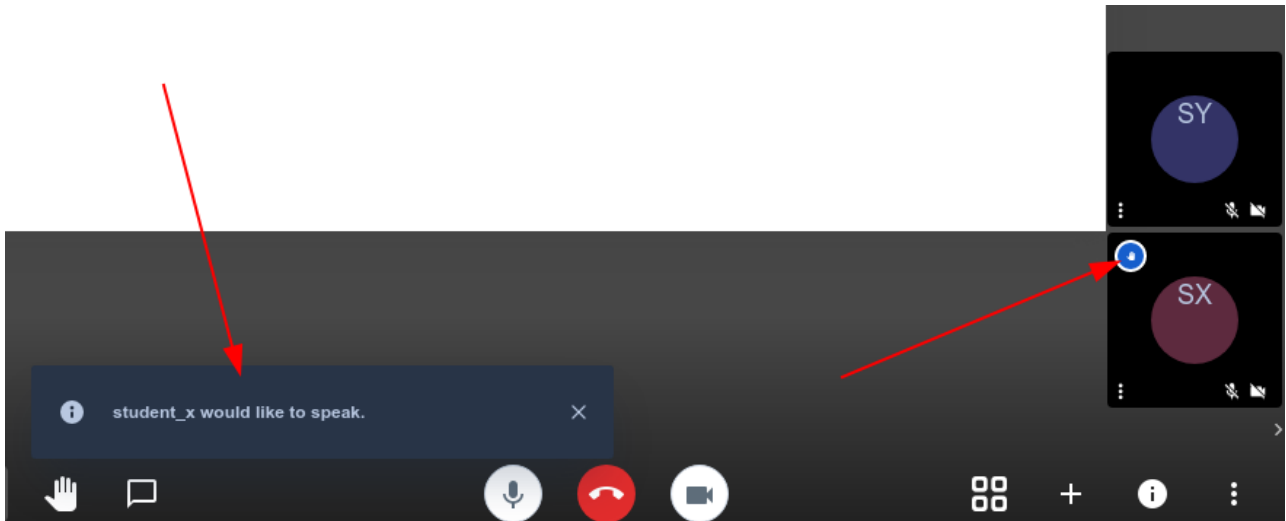

student, they must do that themselves)

Student Interactions (Questions)

- Any student can press the hand button to ask for attention (raise hand)

- You will see a popup notification and also a hand symbol on the panel of the student who raised their hand:

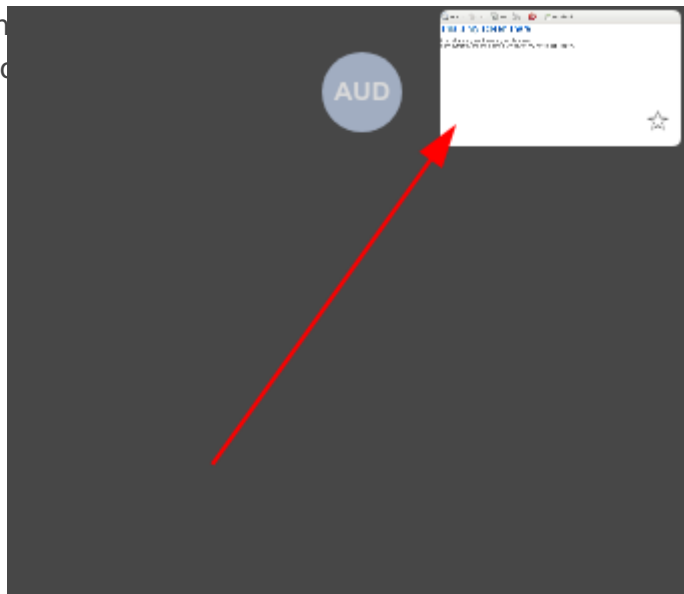

- you can now orally ask that student to turn on their microphone and ask their question.
 - If you hover over the panel of the student you can see his/her full name.
- Afterwards the student should click the hand button again to lower his/her hand.

Troubleshooting

Your Screen Sharing Disappears

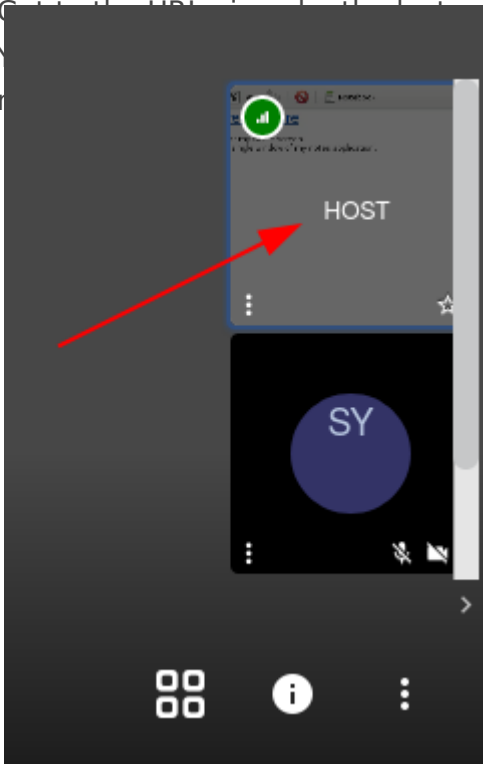

- If your screen sharing disappears, click the rectangle in top right corner. Don't click in the middle you rename

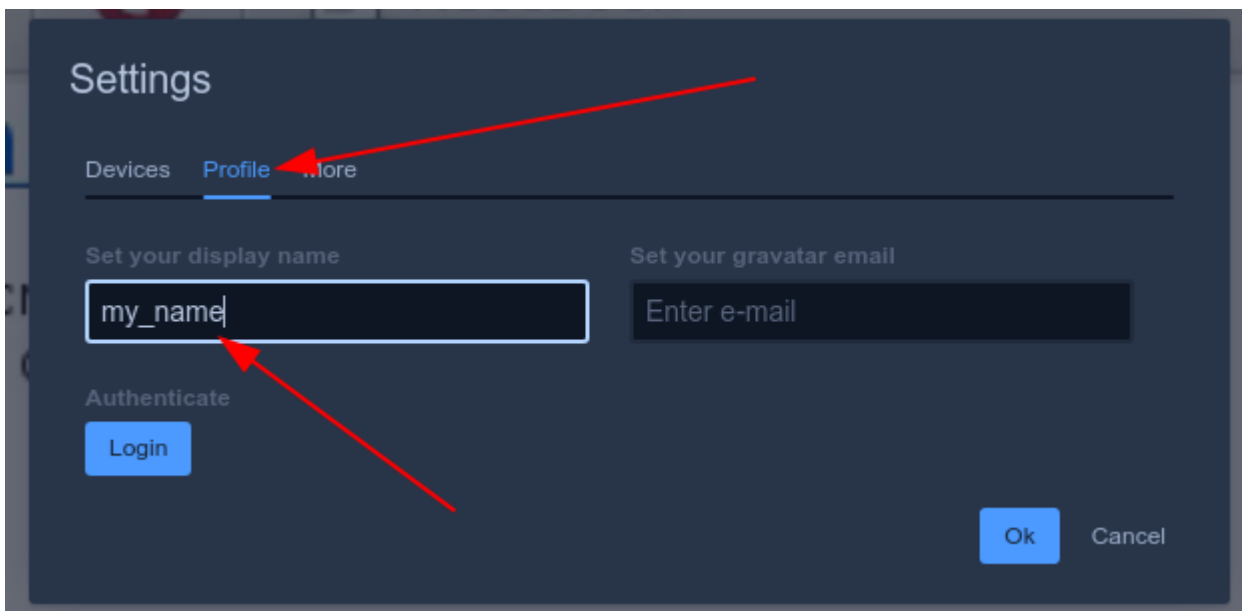

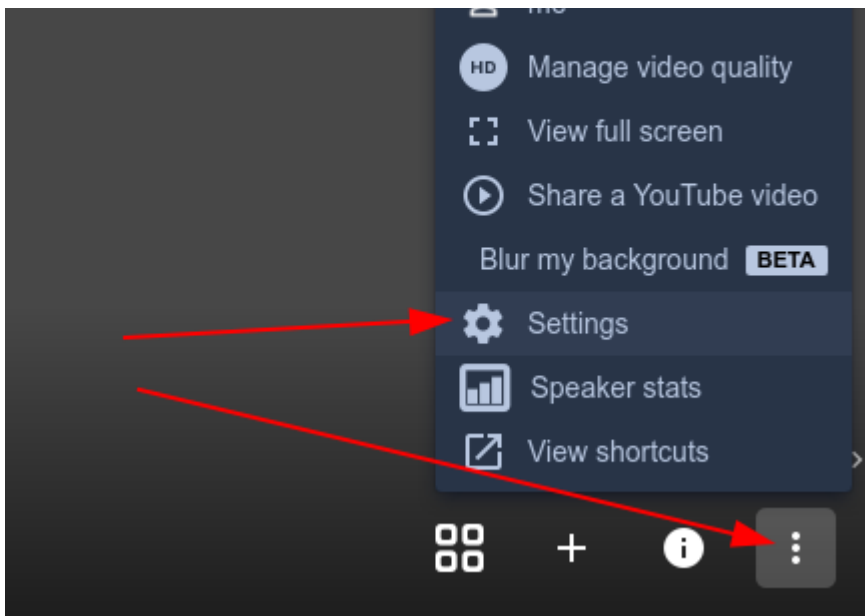

Student/Listener

Join a Meeting

- Get the URL from the lecturer. (URL of the form <https://jitsi.math.uzh.ch/...>)
- You will be asked to join the stream of the host/lecturer. If not, click on the participant icon (top left) and then over over the participants to see their names)

- Your microphone is muted when you join the meeting. Please do not unmute your microphone if you are not asked to do so by the host.
- Give yourself a name so the host can call you out if you have a question
 - Open settings

- If you have a question raise your hand and wait until the host asks you to speak. Then unmute yourself.
 - If the host/lecturer does not see that you raised your hand for too long, unmute and ask for attention.
- If something does not work anymore, just reload the page.
