

mac

Printing via UZHPrintPlus

Official ZI Page: [UZH Print Plus](#)

Recommended for students.

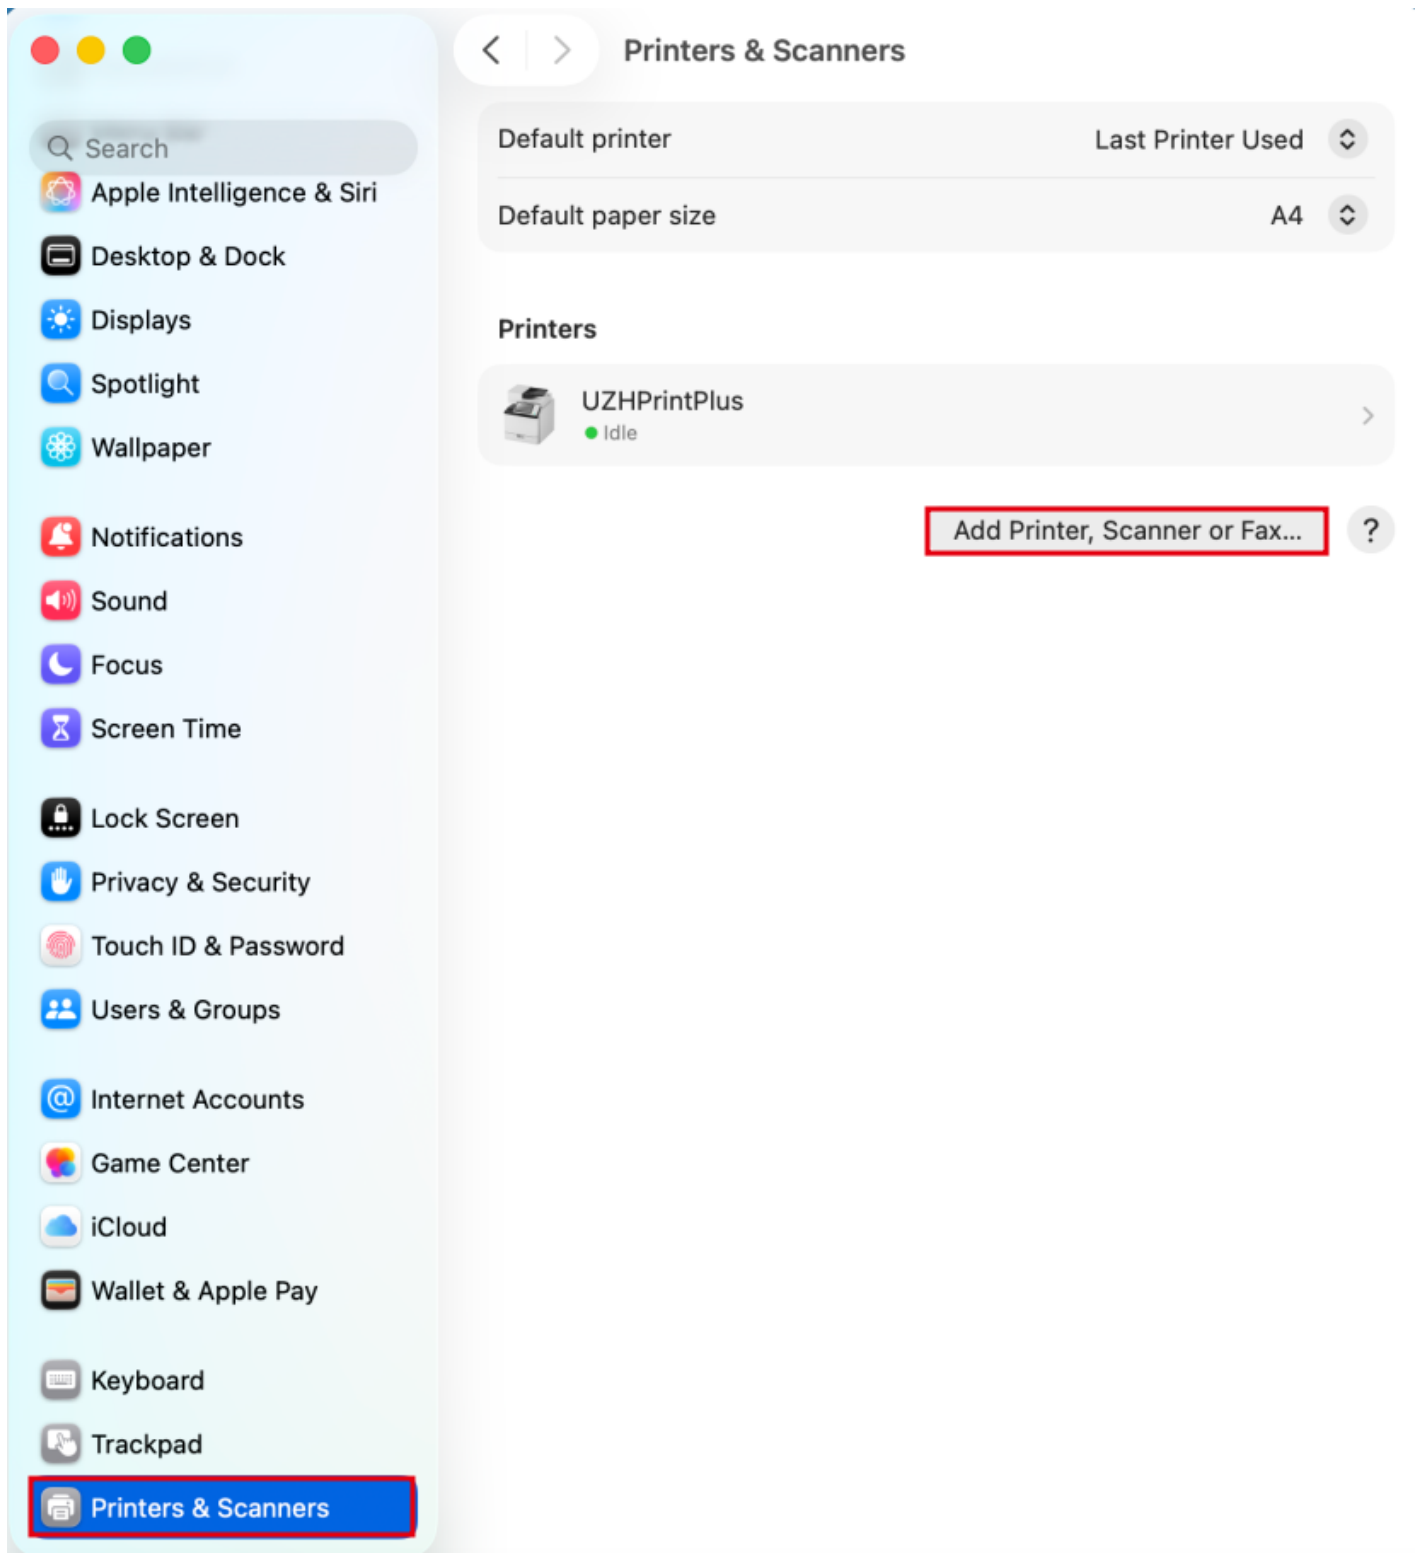

Printing is possible via WLAN *UZH*, but **not** via WLAN EduRoam.

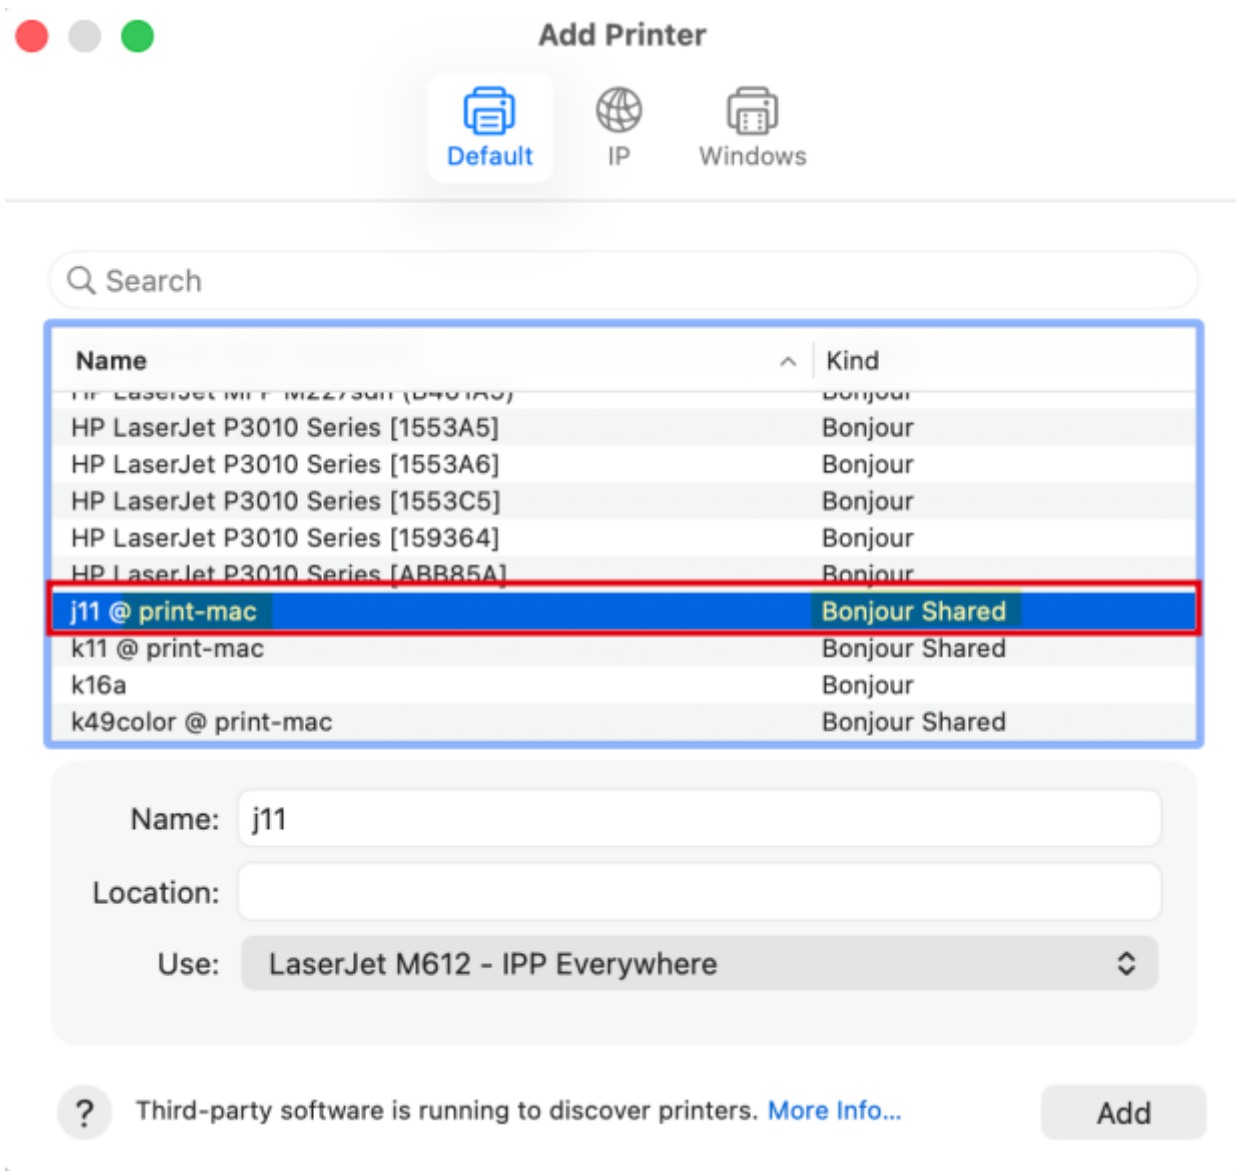

Printing via MATH/DM3L-Print server

Recommended for institute members. (best Option for MacOS)

To use the printer in Y27, you need a **LAN connection** (not WLAN)

Open Printer Settings > Add Printer > Bonjour Shared - only ones that contain "@ **print-mac**" in the name.

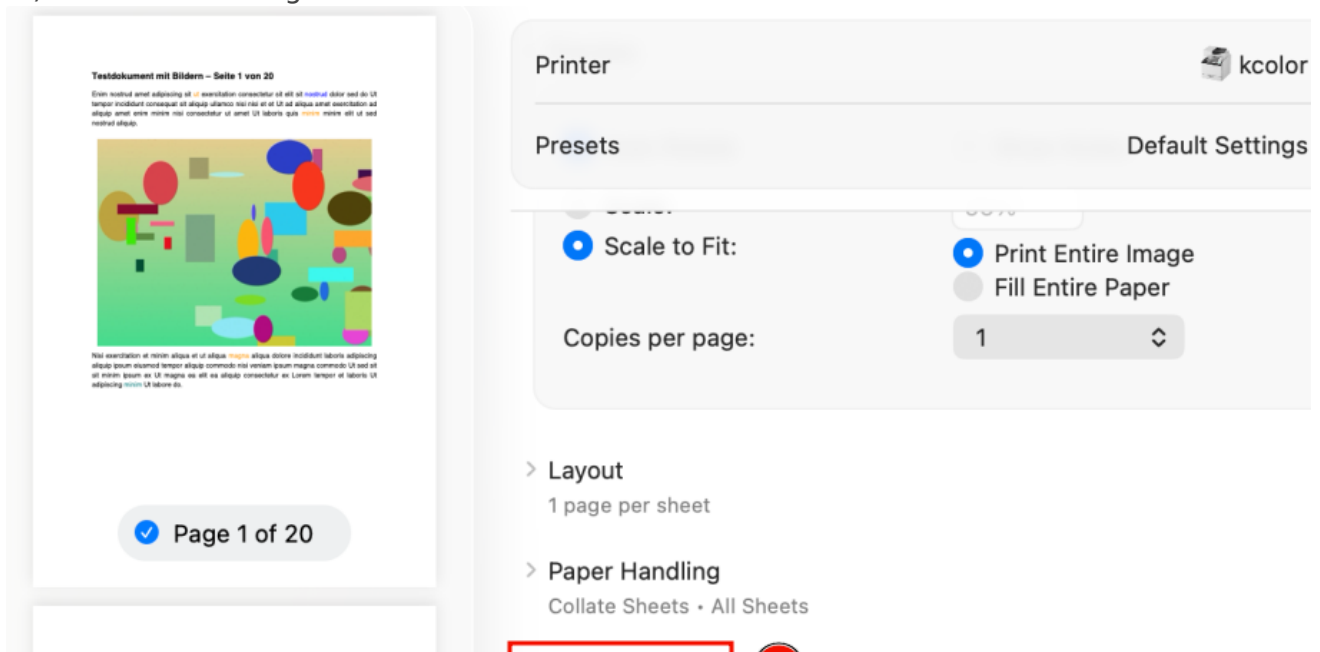

Booklets

Only available on UPP Printers (j, k, jcolor, kcolor)

- Open the Printer-Dialog and follow these Steps:
 - 1.) Scroll down to "Printer options" and expand the menu
 - 2.) Next to "Finishing" click the Info-Icon

- 3.) Print Style: set "Booklet Printing"
- 4.) Saddle Stitch Settings: Set "Fold + Saddle Stitch"
- 5.) Press "OK" to save, then print the Booklet

5

Printing via MATH-Print Linux Printserver

To use the printer in Y27, you need a **LAN connection** (not WLAN)

Due to extra conversion, print time might be several minutes.

- Open System Settings > Printers & Scanners > Add Printer
- Example: Printer K, if you want a different printer replace the k after "printers/" with your printer name (k30, g25, jcolor,...)

Add Printer

Default **IP** Windows

Address:

Valid and complete host name or address.

Protocol:

Queue:

Name:

Location:

Use:

The selected printer software isn't from the manufacturer and may not let you use all the features of your printer.

? Add

Special cases

- k49color: use print22.math.uzh.ch:631 as the address, otherwise files are not printed
