

scan

- H52: [Scanner](#) at the Windows computer.
- Copy machines on Floor 'J' and 'K' (you need a copy machine code - not for students).

Remove background

To remove the background color 'white' (or similar to white): In Thinlinc, please save the image, open the file manager, and choose 'Remove background'.

This is especially useful for scanned signatures to paste to a document.

PDF / TIFF

```
# PDF > TIFF
convert source.pdf new.tiff

# TIFF > PDF
convert source.tiff new.pdf
```

Android: Create PDF from picture

- App: Google Drive
