Transcription

Lecture / Realtime / Overlay window

- Currently there is no official UZH service available for realtime transcription.
- For Windows/Mac https://www.transyncai.com/ is a paid solution.
  - After installation, provide your email - you'll get a code and a 40 minute test if offered.
  - To show an overlay window:
    - Select source and destination language
    - Click on *start* (=play button)
    - In the title of the window you'll see a small icon (active after pressing *start*) to activate the overlay window.
    - Just start to speek.
